

Preferences

1. Menu Options

After logging in to Alpine Mobile®, select the  menu icon, and choose 'Preferences' from the menu options.

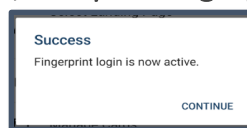

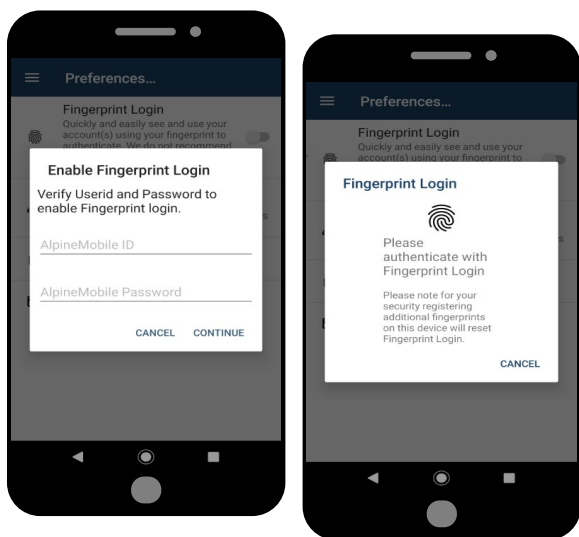

Depending on your mobile device capabilities, your preferences may vary.

2. Set Up Fingerprint Login

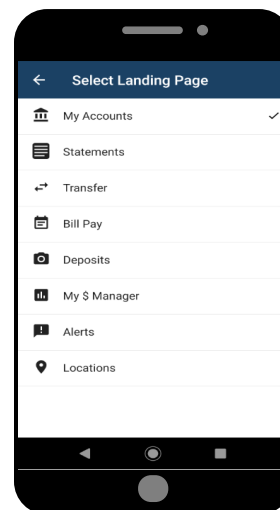

To set up the fingerprint login, enter your Alpine Mobile ID and password to enable your fingerprint login and select 'Continue'.

Next, authenticate your fingerprint by holding your finger on the touch sensor (smart devices only). If your fingerprint is accepted, you will receive a 'Success' message, and your fingerprint login is now activated.

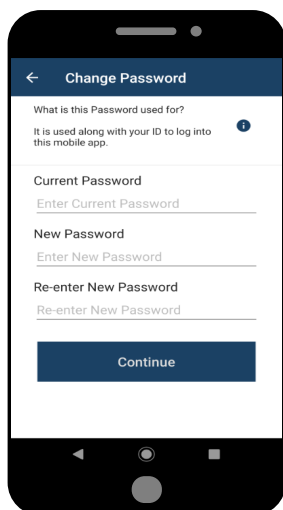

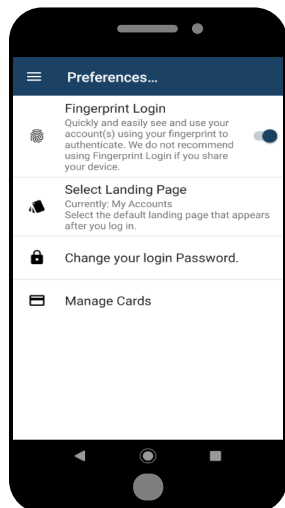

3. Select Landing Page

The landing page is the default screen when you log in to your Alpine Mobile app. If you would like a different screen than the default of 'My Accounts', place a check mark next to the desired landing page, and the next time you log in, you will see the new landing page

Preferences

4. Change Password

To change your password select 'Change your login Password' from the 'Preferences' menu. Enter your current password and then the new password twice.

Note: The  information icon provides the Password rules to create a new password.
