TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document. "Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. "Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity. "You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License. "Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files. "Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types. "Work" shall mean the work of authorship, whether in Source or Object form, made available

under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below). "Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof. "Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution." "Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and (b) You must cause any modified files to carry prominent notices stating that You changed the files; and (c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and (d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License. You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

YOU CANNOT RECOVER ANY OTHER DAMAGES, INCLUDING CONSEQUENTIAL, LOST PROFITS, SPECIAL, INDIRECT OR INCIDENTAL DAMAGES. This limitation applies to anything related to the software, services, content (including code) on third party Internet sites, or third party programs; and claims for breach of contract, breach of warranty, guarantee or condition, strict liability, negligence, or other tort to the extent permitted by applicable law. It also applies even if Microsoft knew or should have known about the possibility of the damages. Change Log

Modification Date	Revision
August 2021	Updates white label.

Introduction

The *Deposit Results* report allows you to review a deposit status, event history, and images of all batches and items scanned via Remote Deposit Complete™ (RDC).

To generate the report:

1. Log in to SmartPay Business, and then select the **Reports** tab.
2. Select **Deposit Results**.
3. Select the location(s) for which the deposit was created, and then choose the date range. The start date should be the date the batch was created.

NOTE: The menu options in your application may differ from those pictured in this document due to branding variations.

Depending on the timeframe requested, the report will be delivered for review either on-screen or via file export. For report requests within the past two years, the data will be available within SPB for review. For report requests older than two years, the data will be available in file download format and located on the *Reports* dashboard, under the *Download Reports* section.

NOTE: To request *Deposit Results* reports that are older than two years, the start and end dates must both be older than two years. Report results only include up to the previous seven years.

Status of Batches

Knowing the status of a batch is important to the batch processing. A batch can be in any of the statuses listed below.

Deposited – The deposit is complete and will be in approved status until the next scheduled file cutoff for the financial institution.

Deleted – The end user has deleted the batch before it was submitted. These items will not process and will need to be rescanned in a new batch. Once a batch has been deleted, you can no longer see the items that were associated with the batch.

Partial Deposit – The deposit is complete, but one or more items have been removed or edited, and the received amount has been adjusted. The total amount that will be deposited is appears under *Total Deposit Amount* on the *Deposit Results* page.

Rejected – The entire batch has been rejected by EPS and will need to be rescanned. Common reasons for a full batch to be rejected are if all items in the batch or duplicates or if the difference between the control amount and the received amount has exceeded the adjustment limit established by the financial institution.

Submitted – Once the batch has been submitted, the EPS Item Processing group will receive the batch, and the items will go through the keying and balancing process. Once this is

complete, an email notification of the deposit will be sent to you if notifications were enabled and an email address was set up under your user profile.

Open for Scanning – Items can be added or removed from the batch while it is in this status.

Status of Items

Similar to the batch itself, the individual items within a batch will go through various statuses. An item can be in any of the statuses listed below.

Deposited – The item has gone through the keying and balancing process and will be in approved status until the next scheduled file cutoff for the FI.

Rejected – EPS has rejected the item because it is a duplicate, has bad image quality, or cannot process through RDC (such as foreign checks.)

Error – The item encountered an error and will need to be rescanned in a new batch.

Needs Rescan – The item will need to be rescanned due to bad image quality, and/or Item Processing is unable to read the amount or MICR line.

In Review – The item was flagged for Item Processing to ensure that the amount and MICR line are correct.

Open – The item is waiting to be processed by the system.

Deposit Results Report Usage Scenarios/Questions

1. Why did the deposit or item reject?

Pull the *Deposit Results Report*, and then click  **View** under *Deposit Details* to see the history of the batch. The details will include a reason for the reject.

2. A deposit was made yesterday, but I did not get credit for it. Why?

Pull the *Deposit Results Report*, and then click  **View** under *Deposit Details*. Look at the time stamp when the batch was sent to Transaction Processing. If this time is after the financial institution's file cutoff time for the day, your deposit will be included in the next file generated for your FI the following business day.

3. I made a deposit, and the totals do not match. Why?

Pull the Deposit Results Report, and click  **View** under *Item Details*. Compare the actual items you have to what was accepted by the Item Processing Group. If you suspect that an item was keyed by Item Processing incorrectly, you can go to the Home page and click the Approved status to find the item(s) in question. From here, the effective date and dollar amount can be adjusted as long as the proper roles and permissions have been enabled.

4. I cannot close my deposit. It says there is an item that needs attention – how do I know which item?

Pull the Deposit Results Report, and click  **View** under *Item Details*, and then review the list of items. Any unresolved items will be highlighted with a message stating “needs attention” next to it. To rescan the item(s), go to the Transactions tab, reopen your deposit, and rescan that sequence number.

5. What is the status of my deposit?

On the *Deposit Results Report* under *Deposit Status*, the condition of the batch will be listed.

6. I scanned a batch, and the amounts are still showing as 0. How do I get the amounts to populate?

Close the batch so that it can be submitted to the Item Processing group. That group will go through the batch, enter the dollar amounts, and balance your batch. After this process is completed, an email notification of the deposit will be sent to you if notifications were enabled and an email address was set up under your user profile.

7. The amount I entered does not match the amount received. I don't want to close the batch until they match.

The items have to be read and keyed by the EPS Item Processing group, but first, the batch will need to be closed in order for those items to be presented to them. After this process is completed, an email notification of the deposit will be sent if notifications were enabled and an email address was set up under your user profile.

8. The amount I entered is not correct. Can I change it?

The control total cannot be changed once the batch has been created. If a zero adjustment limit has been set, the batch will need to be deleted, and another deposit created to solve this issue.
